## Overview

Widely recognized as the leading dental laboratory of the country, VIP DENTAL LAB, has a mission to produce products that match the quality standards of the international market.

## About Us

Vip Dental Lab, is a full-service Dental Lab, specializing in the most complicated cases and cosmetic, digital dentistry. As a result, we produce long-lasting and aesthetically-pleasing outcomes for every dental lab product. Furthermore, we proudly make 100% of our dental lab products at our place. Hence, you can trust we deliver quickly with little to no adjustment and remakes.

---

## CEO Statement

It is our pleasure to introduce our Dental Laboratory, which has been operating in the Indian Dentistry Market since 2011 all the way from Turkiye.

As we have crossed another milestone by completing 12 years in the history of our company by 2023, our continued growth depends on our attention to our customers will remain center stage in our upcoming months of production!

We offer a wide array of services, aimed at simplifying dental practices.

**VIP DENTAL** trod through the path of glory by using imported best-in-class technology and state-of-the-art manufacturing process to roll out an incomparable product range.

VIP DENTAL has gone on to become a bellwether in the dental fraternity.

## Our Mission

Our company mission is to exceed expectations.

Facing the future with confidence looking ahead to what's next and that's only the tip of the iceberg at VIP Dental!

We're proud to be at the forefront of the digital technology wave. Whether you're an expert in digital dentistry already or just beginning to navigate the waters, we're here to help.

## Our Vision

The primary objective of VIP DENTAL LAB has been to provide high precision dental prostheses to its clinician clients for the onward delight of their patients. We always make it a point that our services are well above market standards, and the products that we deliver are par excellence in the global arena. Coupled with our infrastructure of global standards and master technicians, We assure all our clients that we will treat them as we wish to be treated ourselves.

# 97%

Clients satisfaction all  
over the world

**We are honored to have one of the lowest remake and adjustment rates in the industry at 3%**

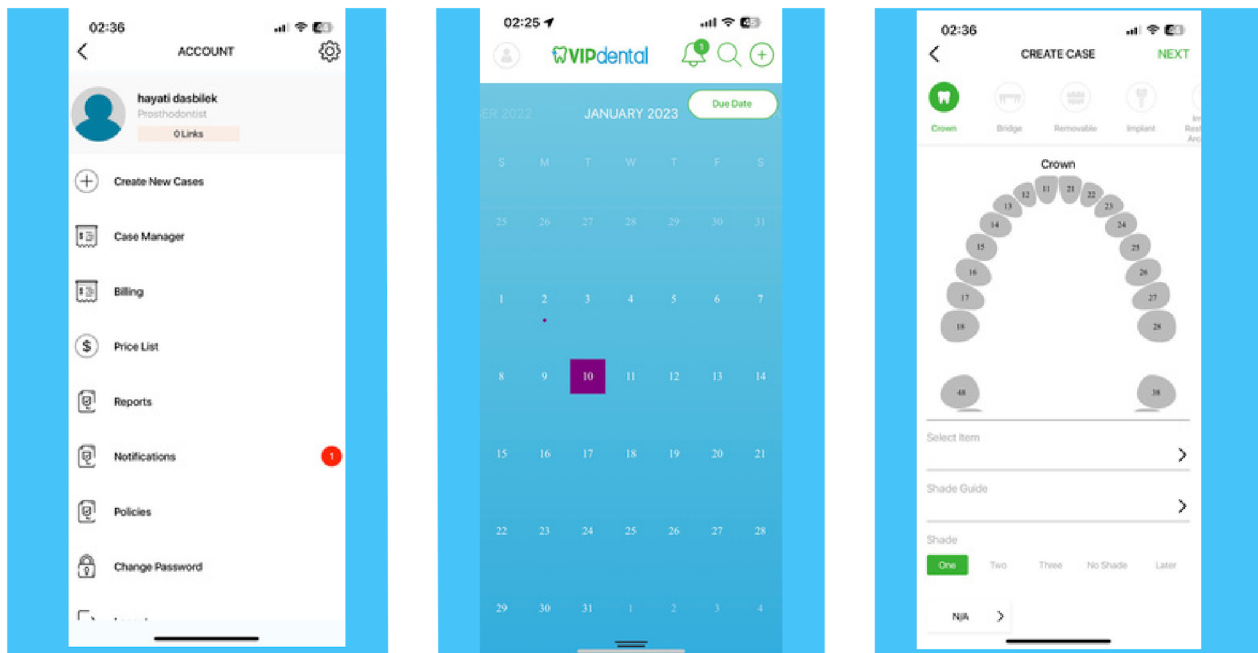

we understand how important it is to maintain a healthy and beautiful smile.

## Our Software

With the “The VIP Dental Lab Software” that provides powerful advanced case management of all the orders, our portal will allow real-time case tracking, messaging and as well as obtaining your own account statement, and many more. The Clients appreciate the transparency, secured and timely information.

## "Vip Dental Lab Software"

Valuable minutes are always lost searching for cases Our automated functions, upfront informatics, and user-friendly portal will make sure you spend time on what really matters.

## Our Product

We ensure that our products provide your patients comfort, satisfaction and compatibility.

### ALL CERAMICS

Vip Dental Laboratory offers all-ceramic materials from all the top brands in the industry. Whether your case calls for porcelain veneers, IPS e.max, Full-Strength Zolid Zirconia or Zolid Fx super high translucent Zirconia Crowns & Bridges, Vip Dental Laboratory has you covered.

### ZIRCONIA RESTORATIONS

We understand your patient expectations. They need high-quality dental crown and bridge restorations from you. And we are here to help you exceed your patient's expectations every time

### RESTORATIONS OVER IMPLANT

At Vip Dental Laboratory, we are experienced in completing your most challenging implant cases from start to finish. To best support your every need .As part of our implant services, we can provide you with not only Custom Abutment, but also the final crown or bridge restoration for your case.

## Our Product

We ensure that our products provide your patients comfort, satisfaction and compatibility.

### DIAGNOSTIC WAXING

Show your patients what cosmetic dentistry can achieve! Very helpful when treatment planning crowns, bridges, veneers and implants as well as Advanced Cosmetic cases. Diagnostic Wax-ups provide a powerful patient communication tool (natural-looking three-dimensional representation of final case)

### HARD ACRYLIC NIGHT GUARDS / SPLINTS

Hard acrylic night guards and splints are a great solution for Bruxism and TMJ disorders. Hard Acrylic Splints can be designed and customized in any way you like in order to meet the needs of your patient.

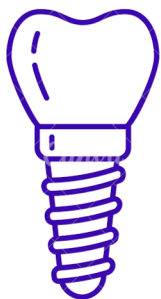

### REMOVABLE DENTURES

Our team of removable dental technicians has decades of experience in creating cases for edentulous and partially edentulous patients. Using proven designs, high-quality materials and state-of-the-art equipment, our technicians customize each case for a comfortable, durable restorative appliance.

## Our Product

Our state-of-the-art optical scanner allows for the creation of high-speed and extremely precise CAD/CAM dental solutions.

### RESTORATION OVER IMPLANTS

As part of our implant services, we can provide you with not only Custom Abutment, but also the final crown or bridge restoration for your case.

We offer a number of options to complete your implant case, including traditional PFMs, IPS e.max®, and Zirconia. Call today to speak with our experienced technical advisors!

We create positive experiences for both you and your patient, and finding the best solutions with exceptional clinical quality is what we strive for in every routine and complex dental case.

Our goal is simple: consistently produce natural-looking restorations to restore confidence in your patient's smile.

VIP Dental Lab is specialized in the knowledge of all dental implant cases, providing highly regarded customized solutions for all indications

**Our growth has been based on maintaining relationships with our clients across India!**

4,000 sq. feet laboratory carries out all its manufacturing processes related to the dental prosthesis. Ever since its inception, VIP Dental has gained a significant market share by serving the requirements of 100 and more clients in the dental fraternity.

## Our Team

Our knowledgeable technical support team is available to advise on even your most challenging cases.

**Whether a single conventional porcelain-to-metal crown or an extensive full mouth restoration, our highly trained technicians will provide you with outstanding communication, service and quality.**

We have designed our laboratory so that the same team of technicians consistently works on your cases. We have a highly skilled workforce of technicians from renowned institutions. Our technicians are trained in the various fields of dentistry by world-known companies and are therefore capable of delivering services of international standards. To adopt the latest technological advances in cosmetic dentistry, our technicians attend hands-on courses in India and abroad.

## Testimonials

*"I've been working with VIP Dental Lab since its inception. Many a case ,from the simple crowns to the most complicated implant frameworks,I've always entrusted to them, and Hayati and team have never disappointed me. I very rarely need repetition of work , but on occasions that I do ,it is always complied with immediately. Material used is top class and results are appreciated both by my patients and peers alike. More power to you in the coming years"*

**Dr. Sheetal Saklecha, Santosh Dental Care**

*"I have been working with VIP Dental Lab for about 2 years now. Hayati is undoubtedly one of the best dental technicians/ceramists in India. He has an advanced set up in his facility in Bangalore and has been a pleasure working with him with various digital workflows. Unlike the average dental technician, Hayati is well equipped with desktop scanners, design software, milling machines and 3D printers. I look forward to working with him and growing together in the long term."*

**Dr Druthil Belur, Dental Lavelle**
